⚠️ Wire Fraud Risk — Email Spoofing Possible

$275M REAL ESTATE WIRE FRAUD (FBI IC3 2024)

12,368 COMPLAINTS FILED

$3.04B TOTAL BEC LOSSES

This domain does not have enforced DMARC protection. An attacker can send emails that appear to come from any address at this domain — including executives and escrow officers — without detection. Real estate transactions are the #1 wire fraud target in the United States. Correcting this vulnerability eliminates the most common attack vector and is now an ALTA baseline requirement.

DOMAIN HEALTH FINDINGS

CHECK	STATUS	VALUE FOUND	RISK
SPF Record	PASS	`v=spf1 include:spf.protection.outlook.com -all`	None
DMARC Policy	WARN	`v=DMARC1; p=none;`	HIGH — monitoring only, no enforcement
DKIM	WARN	Not detected via TXT scan	May affect deliverability
MX Records	PASS	`0 thriverealty-com.mail.protection.outlook.com.`	None
SSL Certificate	PASS	HTTPS reachable	None
XML Sitemap	WARN	Not found	Reduced SEO indexing
Analytics	PASS	Detected	None
CRM / IDX	WARN	No CRM detected	Manual lead management

01 Enforce DMARC Policy HIGH

DMARC is published but set to p=none (monitoring only). Advance to p=quarantine then p=reject to block spoofed mail.

```
v=DMARC1; p=quarantine;
→ After 30 days without issues, change to p=reject
```

02 Generate XML Sitemap MED

A sitemap helps Google index all pages of your website. Most website platforms can generate one automatically.

```
WordPress: install Yoast SEO → SEO → General → Features → Enable Sitemap
Squarespace: Settings → Advanced → URL Mappings → Auto-sitemap
```

03 Integrate CRM / Lead Capture LOW

No CRM integration detected. A CRM (kvCORE, Follow Up Boss, Sierra) automates lead routing and follow-up.

```
Recommended for small realty teams: kvCORE or Follow Up Boss
Integrate IDX feed for live MLS listings + lead capture forms
```
